Copy of the question for you to keep:

**Advice:** Keep it short and snappy. Choose questions all the candidates can respond to. Not too technical, or too specific. Make sure your writing is **extra clear!** Remember to keep a copy of the question, so you can remember how you phrased it!

**What happens next:** Hand it back to the question desk by **7.30pm sharp** – they have scissors to help cut off the bottom section. All questions will be seen by the chair who will make the final selection. If yours is chosen, you will be asked to stand up and read it out when called (we have roving mikes).
